Recommendation to the Board of Governors:

Table with 6 rows and 2 columns. Row 1: Continuation of the program at the current level of activity without specific action / with specific action as described in the Rationale section of this Form; Row 2: Continuation of the program at a reduced level of activity (e.g., reducing the range of optional tracks, merging programs, etc.) or other corrective action as described in the Rationale section; Row 3: Identification of the program for further development (e.g., providing additional institutional commitment); Row 4: Development of a cooperative program with another institution, or sharing courses, facilities, faculty, and the like; Row 5: Discontinuance of the Program according the provisions of Higher Education Policy Commission (Section 8.1, Series 11, Title 133); Row 6: Other. Specify. The program will continue its generalist and tourism tracks; the therapeutic recreation track will become inactive. (Marked with X)

Rationale for Recommendation: While a technology-capable classroom has been equipped and available for class instruction, for the entire recreation program the Department has neither adequately addressed its assessment plan nor provided evidence of an Advisory Committee. The Committee feels that these items must be addressed immediately in order to assess data collected prior to the next comprehensive review due in Fall, 2013. I concur with the Committee's Recommendation and Rationale.
