

WEST VIRGINIA STATE UNIVERSITY

"A Living Laboratory of Human Relations"

Memorandum

To: Dr. Timothy Ruhnke, Chair
Faculty Senate

From:  Dr. Emily Waugh, Chair
Program Review Committee

Date: 2/4/2011

Re: Report from Program Review Committee

This year, Education and Psychology programs are scheduled to participate in Program Review. The Program Review Committee met on August 18, 2010 to appoint liaisons to the programs and set due dates for this year. Appendices were due on October 20, a draft of the narrative was due on November 17, and the final draft was due on January 26, 2011. We have received final drafts for both programs and are in the process of finalizing those reviews. We will have recommendations ready to go before Faculty Senate before the Board of Governors meeting in April.

Late this semester, the committee will meet with programs scheduled for review or follow-up reports during the upcoming academic year. Chemistry, Computer Science and Mathematics are regularly scheduled for their 5 year review. Health Science, History, Political Science, and Recreation have interim reports due to the committee by December 1, 2011.
