The Chair discussed the calendar for next year. He asked the administration to remember deadlines when thinking about meeting dates for next year. He also stated that the minutes were too detailed. Bullets were suggested to note specific items of importance. He also said that since the minutes were distributed to the Board members in advance, items could be added before the next Board meeting.

Chairman Coleman announced that Dr. Danny Boston has resigned from the Board because his business is requiring a lot of his time and he is not able to devote his attention to the Board of Governors.

Mr. Coleman said he asked Mr. Rowe to coordinate a working group of the Board to work with the administration regarding the IT (Banner) System and discuss it at the next Board meeting.

**President's Report.** Dr. Carter's report focused on the Strategic Plan and Fund raising. He introduced Mr. Bill Patterson, Consulting Chief Marketing Officer. Mr. Patterson presented a power-point presentation to the Board. Mr. Patterson also gave a progress report regarding the Strategic Plan. The Board was given hand-outs about the Plan. Mr. Patterson said it was emphasized that in order to be successful WVSU has to:

- Act with a clear sense of urgency
- Renew and rejuvenate a passion for excellence
- Believe in our Mission Statement and the WVSU Vision

In regards to marketing WVSU, Mr. Patterson said that WVSU should be nationally and internationally known. There was a brief discussion in which Dr. Guetzloff and Dr. McMeans agreed that WVSU is nationally and internationally known especially in bio-technology.

Dr. Carter said that the Strategic Plan drives the University's directions and focus, allocation of existing resources, and guides future investments. WVSU's Strategic Planning process provides a vehicle for WVSU students, administrators, faculty, staff, community stake holders and business partners to contribute and agree about the long-term goals and strategies and objectives and strategic focus areas that are consistent with the University's mission and vision. He said the following six focus areas are recommended.
to be essential to WVSU's strategic goals for 2011-2013:
  • Develop focus programs to insure student academic success and thereby increase retention and graduation rates;
  • Invest in strategic marketing to create and convey a compelling brand identity;
  • Engage in long-term sustained, philanthropic success;
  • Grow enrollment through planning and institution that is focused on enrollment marketing campaign supporting managing processes based on industry practices;
  • Develop a university-wide research agenda that furthers WVSU's reputation for scholarship and academic excellence;
  • Develop academic centers of excellence that are widely recognized and held in high esteem by external stake holders and the public at large.

The President said WVSU has developed recommendations for organizing or transforming a success. These recommendations will include:

  • Establishing a university-wide strategic planning function;
  • Reaffirming Academic Affairs central role in shaping the Institution's future.

Mr. Patterson said a strategic marketing initiative is essential because a competitive landscape within higher education has taken on an entirely different posture than five to ten years ago.

Dr. Carter added that following this meeting, each administrative area will develop objectives, tactics, and assessments for achieving the stated goals. No later than May 31, 2011, each administrative area will have developed a budgeting plan prioritizing stated objectives, strategies and tactics that will support strategic marketing, long term sustained philanthropic success, growing enrollment, developing a university-wide research agenda, and developing academic centers of excellence. Also, no later than May 31st, the President said each administrative area will have developed operational and successful plans and the Institutional Effectiveness Office will assist in developing electronic reporting assessment as required. Dr. Carter said at the June Board meeting a complete detailed Strategic Plan will be submitted to the Board for approval and by the beginning of the fall 2011 semester, each
administrative area will begin implementing the administrative and university operational plans. The President also said that during implementation, each administrative area will maintain continuous assessment and submit periodic progress and effectiveness reports to the Board of Governors and administration as requested. It was noted that all of the entities need to line up with how they contribute to that specific strategic priority.

Dr. Carter said that the fund raising efforts are well underway. A draft case for support for the fund raising campaign has been developed. The case for support clearly expresses the University's mission, vision, history and programs while presenting a strong argument for the importance of our work and supporting student success. Dr. Carter presented a power-point presentation that outlined how the University plans to meet the challenge to raise $12.5 million dollars. The President said he'd like to recommend a change in the organizational structure of WVSU that would allow him more time for fund raising.

Dr. Carter asked for a motion to confer the Honorary Doctor of Laws Degree to the Honorable Donald L. Graham who is a WVSU alumnus and the Commencement speaker on May 15, 2011. Mr. Williams moved to confer the degree and Mr. Casdorph seconded the motion. The motion carried.

**Executive Committee.** Dr. Thralls said staffing and organizational structure was discussed. He said they discussed the status of the WV Rehabilitation Center and there are problems, especially electrical issues, that have to be taken care of before the property is passed to WVSU. They discussed having greater involvement with the management at Shawnee Park. They talked about the Higher Learning Commission of the North Central Association of Colleges and Schools' Accreditation Visit for 2014-2015. A major part of this is the Institution's self-study which involves a year of intensive activity. He told the Board that the last two visits from the Commission resulted in WVSU receiving the full ten year accreditation.

**Academic Policies Committee.** Mr. Rowe chaired the committee and two programs were reviewed. The Committee recommended that the Board approve comprehensive program reviews for two academic programs which were a B. S. in Education and B. A. in Psychology. Mr. Rowe moved to approve comprehensive program reviews for the two programs and Dr.
Guetzloff seconded the motion. The motion carried.

**Finance Committee.** Mr. Williams said there is a small problem with AVI. The Legislative Audit Committee founded that instead of the University receiving 12% commission, we were receiving 5%; however, the issue is being looked into. The Committee also discussed right-sizing the salary of WVSU staff. Chairman Williams suggested that money be allocated for employee and Board training on budgetary right-sizing and cost containment. The Committee adopted a policy that will be reflected in the new budget to deal with the right-sizing issue. The Finance Committee is recommending that the budget be reduced by $500,000. They asked that tuition and fees be increased for FY 2012 by 8% to help with salary increases and other assessment costs. Dr. Guetzloff stated and proposed a 6.5% tuition increase instead of 8% because he said 8% is too large. He also said that enrollment will take a hit on an 8% tuition increase and this should not be considered a conservative estimate. The Chair said there is a request for a recruiter position for $35,000. Mr. Williams said it was recommended that there be an employment freeze unless it is related to the Strategic Plan goals. After much discussion regarding the budget and fee increases, Chairman Williams moved that tuition and fees be increased for FY 2012 by 8%. On a motion duly made and seconded, there was a roll call for the vote:

The Chair then asked for approval of salary increases for FY 2012 which would be 2% for faculty and non-classified staff and 3% for classified staff which includes 1% going into a pool to adjust to the Mercer Scale. The motion was duly made and seconded. Mr. Coleman said there were funds from the State to partially fund the salary increases. He asked if those were

How the University is doing with strategies to grow enrollment; 2. How the University is doing with advancement issues with respect to the Fund Raising Campaign and operational costs to the University; and 3. What the University is doing in the area of cost containment and cost reallocation. He said this would provide a mechanism to track and deal with the finances. Mr. Coleman said it could be a part of the standard agenda.

Mr. Williams moved that room and board be increased and included along
with the tuition and fees. Mr. Rowe seconded the motion. The motion carried. Mr. Casdorph voted no.

Planning and Advancement Committee. Mr. Casdorph said the Committee asked for $1.25 million for the loss of the KVCTC; match-money of $842,000 Land-Grant programs; and $1.1 million over 3 years for technology upgrade. We did not get any of that money but he said we may be able to get the Land-Grant match-money during the Special Session. They are in the process of contacting alumni for fund raising support.

Recruitment and Retention Committee. Mr. Hicks said the Committee focused on the West Virginia State University Opportunity Scholarship. Chairman Hicks said there have been 100 applications so far. He also said there will be a line established for the scholarship in the University budget of $200,000 in year one of the program peak and $800,000 in year four and thereafter.
