West Virginia State University
Strategic Plan Initiative 2011-2013

A priority of the West Virginia State University Mission Statement is to meet higher education and economic development needs of the state and region through innovative teaching, applied research, and service. We envision a nationally recognized land-grant university linking its students, faculty, and the citizens of West Virginia to education, research, and economic opportunities in a global marketplace.

In keeping with this mission and vision, West Virginia State University has embarked upon a bold initiative to transform itself into a premier land-grant institution recognized nationally for scholarship, research, and academic excellence. Successful completion of this journey will require WVSU’s Board of Governors, executive leadership and all university stakeholders to address important opportunities.
